

Latching Snap-Action Switches

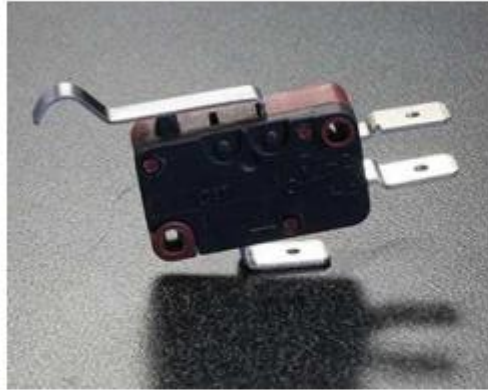

CIT offers Latching Snap-Action Switches

CIT Relay & Switch is now offering our long life VM3 Series snap-action switch with a latching option. These UL/CUL recognized switches are available the 0.187" or 0.250" termination. Available with operating force of 400gF, common applications for the VM3L latching switch include industrial controls, lighting, security, gaming, automation and more. The VM3 Series still offers a momentary function option with a choice of actuators.

Specifications and materials are dependent upon your choice of switch.

Lead-time averages 6 to 8 weeks. Volume pricing is dependent on option choices. Contact CIT directly for a quote and sample to solve your snap-action switch needs.

CIT Dedication Makes a Difference

CIT Relay & Switch manufactures a broad line of automotive, telecom, security, industrial and HVAC switches and relays in thru-hole and surface mount styles. Our focus is on customer service and quality combined with cost-effective manufacturing. We hope you will give CIT the opportunity to demonstrate to you why so many are joining our growing list of satisfied customers. Our customers rely on the service and quality provided by the team at CIT Relay & Switch.
